What To Do Next?

Are you in doubt about what you are going to do this fall? Do you feel you have a patriotic duty to fulfill? If so, why not give it some serious thinking and really do it. There is no reason for this. You can get an excellent letter on why I should go to school, well in a way it is and in another it isn't because if you feel you could do something going to school would mean to go to school, do I realize a large majority of people who read this paper are or will be going to school soon pretty sure that you will know, but on the other hand there are many who are trying to decide what they should do. Why not try to help them decide.

We all know the importance of education now and can see how much more important it is going to be after the war. It is a known fact that it is the future leaders of our country and being able to do this in the way that it would be most probably be a college education.

Many times you hear people say, "Why go to college? I don't want to teach school." We know this is perfectly ridiculous of one kind of reasoning can be obtained from most of the training is practical. One thing that has been said to many people the past year or two is going to college and working in defense plants and you probably may have caused it but most usually the wages looked good, and in the long run nothing was made for expenses were paid.

There is no doubt but we're living in a bad time and it is just hard to make decisions. There are a lot of things we can do. Many of us will be going out and start teaching soon but there will be many undecided about what they will do. There is no doubt but we're living in a bad time and it is just hard to make decisions.

Make Yourself Useful

Why don't you have a good time during vacation and be useful at the same time? For some time now you have been studying and anyway going to school and you probably haven't had much physical exercise. Really, wouldn't you like to get some exercise? The labor situation with farmers is pretty bad. In lots of cases there is only one man to do the work on a farm. He used to have three or four boys to help him and now they are scattered all over the world in camps and in fighting areas. You know more about farming than you think. For instance, would you know a tobacco plant? If you were told to sucker it I bet you can drive too. Well, we have tractors too and you know and you can drive a car could handle tractor and you can drive a car could handle tractor.

So, you don't live on a farm? So what?—get the gang and go out and work on a farm. You can get a job and you likely you won't be turned down. Besides all the wonderful exercise and the getting of your anemic body in shape, the farmer will be something to brag about. The work is really right about August. Tomatoes, lots of them, green beans, and what something to eat. You can get a job, do odd work, say nothing of the plan and can't say. Boy, these very meals are really something.

There is nothing to do our part for the war effort and helping the farmer is one of the best ways, especially at this time. We have a month between summer school and fall term and it wouldn't be a sacrifice on our part to do our part to help our brothers, fathers and sweethearts win this war.

Has He Noticed?

For years now sometime or other college students have found conversations on compulsory classes. The general opinion is that it is pretty much a waste of time. It is a waste of time and all in an assigned seat and listen to something that is not of your own making. The fact that it is a waste of time in this policy is taking off credit from our record if a chance absence is counted, which it usually is. That last year I was in a class and I was the only one who was not there. I don't think I was the only one who was not there. I don't think I was the only one who was not there.

Mr. L. A. Newell, Jr. Tuesday morning at Norton's in Louisville Hospital. Friday morning in Louisville and home made today, August 17. He was in the hospital for two weeks. He was in the hospital for two weeks. He was in the hospital for two weeks.

THE SENIOR PAGE

Dear Seniors:

For the past two years the Trail Blazer has been dedicating a page each quarter to the graduating seniors of Morehead State Teachers College. During ordinary times, the school has published the Raconteur, the College yearbook, which gives recognition to your accomplishments, but, due to war-time restrictions, the school paper has taken over the job.

We, the members of the Trail Blazer staff, have taken pleasure in preparing once again this special Senior Page as a tribute to our friends and classmates. We hope that soon our campus and college activities may resume their normal procedure, and, when that time comes, may we realize that it was through your contributions and loyalty to the school that we were able to uphold the high precedents and standards set during the years past.

We are glad to dedicate this page to you and herald your name and good work to others. To the best of our ability, we have listed your activities during your years at Morehead.

You are graduating in one of the most crucial and climatic periods in the history of our country, but we know that you have prepared yourselves for the challenging future that lies ahead.

We are proud to call you our friends and to list you as graduates of Morehead State Teachers College.
